

# Swaddled in Love

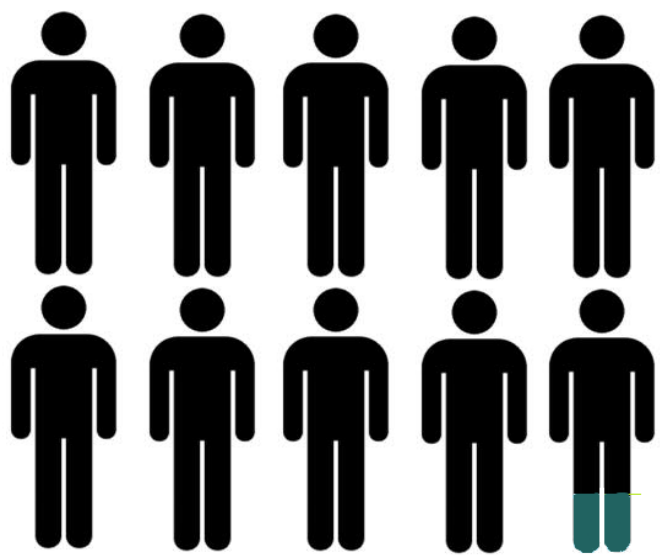

*Lending a hand to orphaned children around the world*

**151** million children have lost one or both parents.

## The Power of 2

Adoptions made from the U.S. make up just **2%** of the children in foster care in the U.S. alone.

If just **2%** of the people in the world helped an orphaned child, *all of the children would receive the help they need.*

Help the *millions* of orphaned children by participating in the **Swaddled in Love** program:
